

PRACTICUM PROGRAM

How about a new student program offered by the Bosch Cluj Plant?

Now you can value all the theoretical aspects learned at university by combining a hands-on approach with the high-value experiential learning within our plant. You will not only benefit from a great head start in your career but also from the great chance to, at the end of the program, continue your journey of gaining practical experience in another Bosch program for students or take a permanent role in the company.

Find out all the details
